

ACTIVE SPRAY

ACTIVATOR SPRAY FOR INSTANT ADHESIVES

AFINITICA® Active Spray is a surface preparation product that accelerates cyanoacrylate curing and is specially designed to accelerate AFINITICA Rapid Assembly on wood and plastics. Long on-part life and short drying time make this product the accelerator of choice for professionals and DIY users. In contrast to already available commercial cyanoacrylate primer AFINITICA Active Spray is non-toxic which makes it especially suitable for home users.
